Unit colors are now available in four qualities—two silk and two wool, at a wide range of prices, within the reach of every Auxiliary Unit.

Both grades of silk flags are made to the same rigid specifications and are identical in every respect with the exception of the weight of the silk. Grade 1 silk flags are made of heavy, U. S. Government quality silk. Grade 2 silk flags are made of the same quality silk, identical in appearance, but slightly lighter in weight. The equipment, workmanship and appearance of both grades are identical.

Wool flags are likewise made to the same specifications and are identical excepting the Grade B flag is single instead of double thickness material. Both flags are made of U. S. Government quality wool bunting.

### SPECIFICATIONS

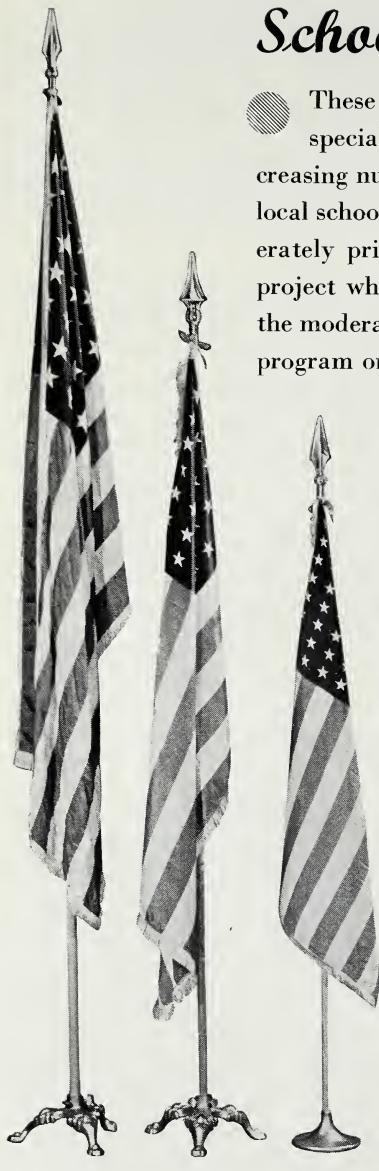

SIZE—All Auxiliary flags are 3 x 5 feet in size.

DESCRIPTION—Silk U. S. flags are made with embroidered stars and sewed stripes. Wool U. S. flags are made with sewed stars and sewed stripes. Silk Unit banners are made of double thickness material, with the emblem and lettering reading correctly on both sides. The insignia and lettering are executed in pure gold leaf. Grade A wool Unit banners are made with double thickness material, with painted (oil color) emblem, and with gold sateen appliqued lettering. Grade B wool Unit banners are identical with the exception they are single thickness material. The emblem and lettering appears on both sides, with the inscription reading reverse on the back. The double emblem, however, is reproduced correctly (oil colors) on both sides.

MOUNTING—All flags and banners are trimmed on three sides with two-inch yellow silk bullion fringe and ornamented with a pair of six-inch yellow silk tassels with nine feet of yellow silk cord. Each is mounted on an eight-foot polished antique oak pole, fitted with double brass screw joint and surmounted with a six-inch solid brass eagle.
